

What We Growing at CPL

At CPL, we're growing more than plants- small, meaningful efforts rooted in care, community, and purpose. 🌱

1

Recycling daily waste respo

We're partnering with Snel Bio Science Ltd to manage waste from everyday discards into sustainable resources and advancing our goal of a greener planet.

Beehive adoption & ethically sourcing honey

In 2024, we adopted a queen bee through Project Adopt a Queen. The honey from the hive now finds its way into our café, bringing you not just natural sweetness, but a taste of our commitment to ethically sourcing our ingredients- as much as possible!

3

Thrift Corner

Where secondhand isn't second-best. Curated with love, every piece here has a story and a second chance. What began as a small, heartfelt initiative at our Rajpath Rangoli outlet as just one rack of pre-loved treasures, has now found its way to Naranpura too.

4

Supporting NGOs, and promoting purposeful partnerships

Our café opens its doors to those working for change in the belief that doing good should be met with care. We offer a warm space, food at gentle prices, and a sense of belonging. Because those who give their energy deserve a place that gives back, without needing to.

5

Usage of fresh, high-quality ingredients

Quality isn't a claim, it's a daily commitment. From fresh vegetables sourced each morning to ingredients we actually believe in, every dish reflects the standards we refuse to compromise on- even if it costs a bit more.

6

Feeding the Impact: Discount to Purposeful Organizations

We believe in supporting changemakers. That's why we offer discounts to organizations creating real, positive impact- be it in healthcare, sustainability, or social welfare.

A small thank-you for the big things you do, for the organization has had the privilege of being associated with and can vouch for

7

Supporting Small Businesses

We love supporting passionate entrepreneurs building from the ground up, especially women-led ventures doing incredible work (with no offense to the gentlemen, of course!).

Despite the heartbreaks, we still try to hold the team like family

In an industry where loyalty is fragile and setbacks are frequent, we continue to lead with care, choosing to build environments where people feel seen, valued, and respected. Not everyone stays, and not everyone plays fair, but the intent to build something honest never fades.

At the heart of it all, plants

As a plant store café in Ahmedabad, we don't just decorate with plants
we build around it. Our vision is to create a space where nature
and mindful living grow together.
